organization can get positions. These facts give assurance that a formal strike may continue for a long time to come, for with the full complement of men employed those for whom there are not positions will keep up the organization and the stubborn struggle.

The only disorder or attempted violence reported from any source yesterday was he stoning of a car at Eighteenth and venable Streets. This was reported to military headquarters by Capitain A. W. Miller's company, stationed at the Oakwood end of the line. A dytachment sent thither to apprehend the stone throwers found quiet prevailing and no sign of the presence of miscreants.

The force consists of seven regulars, see extra, and one tellef. Their only uniform is the shirt waist and their badge of authority is a ribbon with the word "Conductor" printed on it. Some of them wear this pinned around neat white caps, and others wear it on picture hats. They enjoy a day off every week, and one Sunday off in every seven week. Their working hours are arranged on a complex schedule that makes their longest day's work that from 6.29 A. M. to 10:50 P. M., with forty-five inhutes off at noon. Their pay is \$5 a week.

The conductors like the work and are hardened to sill the jests made by the facetious. They get on famously with the motormen and with the male passengers, who frequently make themselves useful when a trolley jumps the wire. INVESTIGATE KUHN NEXT

His Name Given to Board by Mike McDonough for Alleged Swearing and Apparently Siding With Strikers-Robinson Case.

The meeting of the Police Board connued three hours last night, and all that the members were willing to give public was interesting.

Police Officer Murray was honorably acreceived the congratulations of friends.

Reopen Robinson Case.

Reopen Robinson Case.

Another matter of interest was the decision of the Board to reopen the case of Policeman Robinson, who was discharged from the force at the last meeting of the Board on complaint of not making an arrest or endeavoring to do so when a rock was alleged to have been shrown in a car.

The shooting at Lombardy and Main was taken up, and Captain Whitlock was put upon the stand to tell why he did not take measures to arrest the guilty ones. This examination was held also behind closed doors, but it is understood that the Captain fully satisfied whe Board.

Board.

The next meeting will be held at 8 s'clock on Friday evening of this week. Frank Statement.

The investigation of the conduct of Police Officer Murray was opened with a frank statement from Captain A. B. Guigon. Captain Guigon admitted that his complaint and feeling against Mr. Murray had been hasty. He said he had since talked with the motorman, by whom Mr. Murray stood coming down the hill from Chimborazo Park and through Eighteenth Street, and was assured by him that the officer rendered him secretary service. This declaration on the part of Captain Guigon was effective, of course, in placing Mr. Murray in a very much better light before the Board to answer the real charge against him—not going to the Police Court when summoned to do so.

Police Officer Murray was put on the stand. Ho was asked to give his account of the arrest of the two street-car men investigation of the conduct

thought his time had at last come to be one of the finest.

Then Captain Whitlock and Officer Hulcher, of the Third District, spent some time with the Board, and it is understood that the shooting at Lombardy and Main was investigated, with a view to finding what the police of that district did towards eatching the offenders.

district did towards catching the offenders.

A gentleman was admitted to the presence of the Board and requested that the body reopen the case of Policeman Robinson, recently dismissed from the force, on the ground that new evidence had been found which would place him in a very different light before the Board. The body was reminded that Mr. Robinson had been summoned to appear before the Board only the day before the meeting occurred and, therefore, did not have an opportunity to get his witnesses together.

Arrested Many.

It is understood that the Board will be shown that Mr. Robinson has made as many, if not more, arrests since the strike began than any man in his district, and, further, it is alleged that Captien Guigon is willing to state for his company, from whom the compaint emanated, that the punishment of officer was seater than was desired and greater. In his opinion, than he descreed, viewed with the present lights. This case also comes up Friday night.

Mr. Mike McDonough was summoned, He was besieged to state to the Board the name of the policeman who asked him, using an oath the white, what he bad to do with helping a lady on a car. Officer Kuhn was stated by Mr. Me-Donough to be the man and the Board decided to hear his case on Friday night.

BOARD DID **NOT PASS IT**

Additional Police Resolution Goes on Table.

finally reconsidered and laid upon the table. Messrs, Minor and Gunst spoke for the resolution, and It was opposed by Fresident Turpin and Mr. Washer. The vote was 10 to 6 in favor of the appropriation, but its passage required 14 affirmative votes. It was contended by the opponents of the measure that it was the purpose of the Police Board to import forcign detectives here for the purpose of quelling riots when they should arise, and it could not be denied by its advocates, so it failed of adoption. It is possible that it may pass at some later date.

Mr. Washer aired the recent Fulton riot, and declared that elitzens of that community were not responsible for it. The board took a recess of over an hour after being called to order to endeavor to secure a better attendance of members, but only one absentee was found.

Object of Meeting.

President Turpin called the meeting to order at 8:30 P. M., and the roll call disclosed the presence of a quorum of mem-

One Member Brought In.

A little later the sergeant-at-arms appeared with Mr. Donaline, and Mr. Gunst advocated the resolution in a brief speech. He appealed for the peace and good order of the city, and said the appropriation should be made in the interest of orderly government. Mr. Satterfield thought the Police Board now had the power to swear in additional police, and Mr. Minor controverted this and declared that the only authority had by the Police Board in the matter was that conferred from time to time by the Council.

Mr. Turpin (Mr. Wood in the chair) thought Mr. Minor's position was a most extraordinary one. He and Mr. Minor became involved in a colloquy over the legal points involved, and it was carried on for some time. The president saw no necessity for the resolution, and he contended that the authority of the Police Board was now ample in emergency cases. He thought if two hundred soldiers were kept—here for two weeks all would be quite in the city.

Give no More Power.

Give no More Power.

Give no More Power.

He did not think the Police Board had handled the force wisely in the strike matter, and he therefore opposed conferring upon them any more power for the present.

He was of the opinion that the money would be used to bring down detectives who would manufacture crime for their pet diem, and he was opposed to it in toto. Such detectives would stay here as long as they could find crime, and if they could not find it they would manufacture it.

which are seen and time time. The could not find it they would manufacture it.

Mr. Washer agreed with Mr. Turpin, and he took occasion to say that he did not believe the recent disturbance in Fulton was brought about by citizens of that community. He believed detectives would be brought here from elsewhere, and he was opposed to this. He wanted law and citizen and would cheerfully vote for the resolution if he could be convinced that it was a proper one. The Fulton episodic came up again, and Mr. Rennolds raised the point that this was not germane to the question.

Mr. Minor moved the previous question and it was ordered, and upon roll call the resolution was lost—ayes, Messrs, Adams, Burton, Gliman, Gunst, Hall, Mann, Minor, Rennolds, Sheppard and Wood—10; hoes, Messrs, Bahen, Cottrell, Donahue, Satterlield, Washer and Turpin—6.

Mr. Minor changed his vote from "aye" to "no." and moved a reconsideration, which was adopted—ayes, 13; nogs, 3, and the matter was then laid on the table and the body adjourned.

this was a mistake. One motorman said he had run over at least a dozen torpedoes on the several trips he made. There was some throughg of stones, also, on Perry and Hull Streets, but so far as is known nobody was hurt.

All the soldiers have been taken from the city. Sunday hight was the first since the cars began running that the troops have not been on hand, and the removal of them was followed by no untoward happenings. In fact, it seems clear now that there is to be no further trouble in Manchester. Small boys are responsible mostly for such disorder as there is—torpedoes and harmless and ill-directed stones.

Stones.

Quite a number of the members of the Manchester Lodge of Elics left yesterday afternoon for Baltimore, where they go to attend the annual session of the Grand Lodge, which convened yesterday. The party included some twenty or thirty persons. It went first to West Point. Where it boarded the Bay line steamer for Ballimore, Among those who were expected to go are the following: Messrs, D. NO INDICTMENT'S.

The grand jury met yesterday and heard the lengthy and able charge of, Judge Ingram, a portion of which is printed in another column. It then adjourned until Thursday morning, when it will proceed with its business. In addition to considering the matter of boycotts, the grand jury will have on its hands itself in the shooting of Luther Taylor, over which there has been such a silr. It is not likely that the case will ever amount to anything, Judge Ingram plainly indicated in his charge yesterday that fie does not consider the soldlers to blame for the shooting, and in the face of this clear exposition of the law nobody seems to believe that the jurymen will bring in an indictment for anybody. The grand jury is composed of the following: G. S. MeRae (foreman), Waverly Nunnally, A. F. Holt, George S. Grizzard, J. B. Clopton, Charles Burkert, J. D. Mathews, F. B. Dunford, W. W. Pool, A. J.
